

AppendPDF DE

What Is AppendPDF DE?

AppendPDF DE (Desktop Edition) is Appligent's premier desktop product. It combines the powerful document appending capabilities of the server-based AppendPDF Pro with an easy-to-use graphical user interface. With AppendPDF DE, any user can assemble new documents from existing PDF files.

Key Features

Graphical user interface. Combine PDF documents with ease from your desktop. There are no commands to learn or parameter files to build.

Acrobat not required. Create new PDF documents from existing files without Adobe Acrobat. AppendPDF DE is an independent desktop product, not a plug-in.

Bookmark inclusion. Copy bookmarks from the original PDF files to the new document, if you wish.

Cover page and table of contents. Add a personalized cover page and generate a table of contents for the new document.

Document properties. Add information about the new document, including title, subject, author, keywords, and your own custom categories.

Stamping. Permanently stamp text or images anywhere in the new document.

Full Acrobat security. Apply 40-bit or 128-bit file encryption to the new document. Set a user password to control who may view, print, or modify the new document, and an owner password to control who may change security settings.

Linearization. Optimize output PDFs for faster access and viewing when downloaded from the Web or a network.

Operation

Run AppendPDF DE like any other desktop application. Simply open it and select the options you need from the main window (above-right), drop-down menus, and specialized dialog boxes. Quickly find answers to your questions with AppendPDF DE's context-sensitive help.

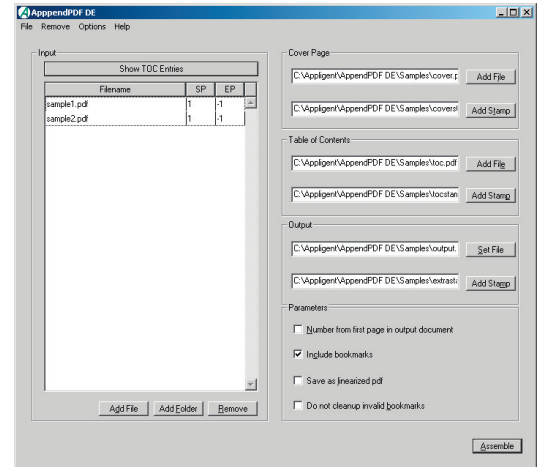

Supported Software & Platforms

AppendPDF DE is compatible with PDF 1.2 and above. It runs on the leading operating systems:

- Windows NT/2000/XP
- Linux
- Mac OS X

Customer Support

Appligent offers both email and telephone support. As an Appligent customer, you are assured of receiving an email response within 24 hours. Phone support is available between 8 a.m. and 6 p.m. EST.
